CODE OF ETHICS

As a condition of membership in the Association, we agree:

1. To promote the conservation of energy and the total utilization of our resources, both natural and manufactured.
2. To determine, within all practical limits, the quality and condition of each automotive part offered for direct recycling and to represent same accurately.
3. To accept social responsibility for good community relations, improved environment, integration of minority, charitable and civic organizations.
4. To be compatible business neighbors.
5. To maintain a clean and non-polluted environment in our places of business.
6. To operate according to the ordinances, statutes, and laws of various jurisdictions.
7. To expend every reasonable effort to market, rather than scrap, reusable automotive parts, so as to achieve for the community, maximum energy and material savings benefits in the manufacture of similar replacement parts.
8. To provide the best product at the lowest possible cost.
9. To provide the public with a maximum degree of satisfaction from the services rendered and merchandise sold.
10. To be truthful and accurate in all advertising and selling.

Reminder:

Please include a copy of your state or local license with your renewal.
